

Upwind Downwind Air Quality Conference 2004

**March 29th and 30th
Hamilton Convention Centre
Hamilton, Ontario, Canada**

Please join us as we continue with our tradition of hosting a

Practical Conference on Improving Air Quality

For this, our third biennial conference, we are delighted to offer you a wide variety of dynamic speakers who are eager to share their expertise and experiences dealing with air quality issues. Air Quality issues will be discussed in context with the following themes:

Human Health Land Use Planning
Urban Design Smart Growth Architecture
Policy Community Action Risk Management

Appealing to planners, architects, designers, elected officials, policy makers, environmental and project managers, academics, and active citizens, the *Upwind Downwind Conference* provides a forum for information sharing, networking, and moving forward toward a healthy future for all.

Visit the Clean Air Hamilton web site,
call, or email for more information.
